

# Hydrogen Energy and Fuel Cells Demystified

“This book is amazing. It has helped me explain the complex science of hydrogen to Wall Street investors.”

— BRION D. TANOUS, NEXT GENERATION ENERGY, MERRIMAN CURHAN FORD & CO.

“...will appeal to readers of any age who have not lost their imagination or spirit of adventure. I also recommend it to the journalists, economists and political leaders of our age in hopes that they will get the science correct when they speak of the most serious technical problem of our time.”

— DR. RICHARD S. TREPTOW, RETIRED CHEMISTRY PROFESSOR, CHICAGO STATE UNIV.

“Whether it’s read for content, for pleasure, or as a source of great read-aloud anecdotes, this book provides the most current information on hydrogen and other energy technologies in an enjoyable way.”

— RICHARD SMITH FOR NATIONAL SCIENCE TEACHERS ASSOCIATION

“Ewing has concocted a formula that made it not only educational and informative, but downright entertaining. It’s a winner!”

— DENNIS WEAVER, ACTOR, ECOLONOMIST

“The International Youth Fuel Cell Competition will continue to recommend this excellent resource for the academic segment of our competition. The students thoroughly enjoy the entertaining format while studying the comprehensive information about hydrogen energy.”

— KAY LARSON, IYFCC DIRECTOR;  
OWNER - FUELCELLSTORE.COM

“Readers are in for a lot of surprises, including many amazing, not-yet-well-known future approaches to hydrogen generation and use.”

— DR. RON LARSON – CHAIR,  
AMERICAN SOLAR ENERGY SOCIETY

Discover the solid science and cutting-edge technologies of hydrogen energy and fuel cells as you embark on a learning safari to the Wasserstoff Farm.

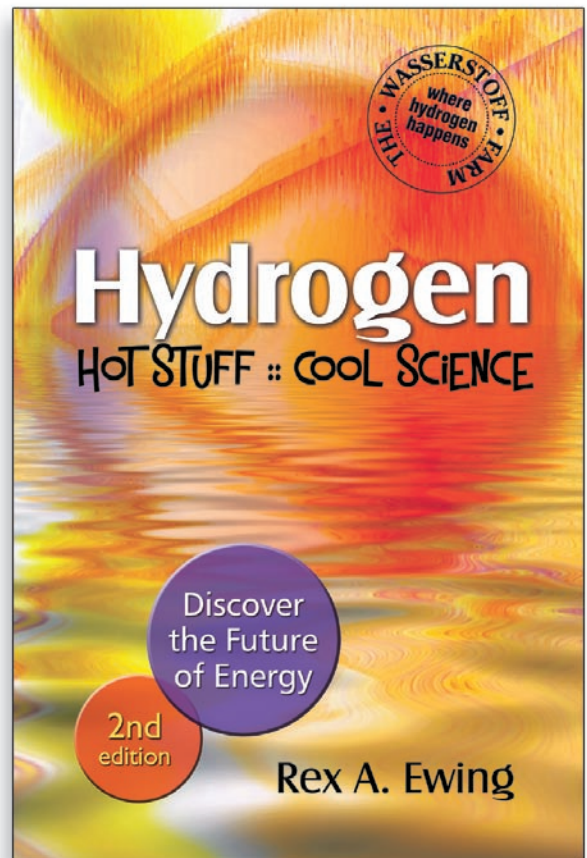

- ★ Explore the many sources of hydrogen and the ingenious methods devised to extract it.
- ★ Learn how we will use hydrogen energy and fuel cells – in our homes and buildings, vehicles and public transportation, for electricity in remote areas and backup power, and much more.
